

Table of contents

Chapter 1 Introduction	5
Chapter 2 General insights about Automotive Supplier Parks	8
2.1 Definition of an Automotive Supplier Park	8
2.1.1. Characteristics of an Automotive Supplier Park	8
2.2 Automotive Supplier Park landscape	13
2.3 Types of Automotive Supplier Parks	15
2.3.1 Integrated ownership (Modular consortium)	15
<i>Case - VW Resende</i>	16
2.3.2 Non-integrated ownership (Relational governance)	17
<i>Case - GM Gravataí</i>	18
2.3.3 Non-integrated ownership (Spot governance)	19
<i>Case - Renault Sandouville</i>	20
2.4 Reasons for entering Automotive Supplier Parks	22
2.4.1 Aims of Automotive Supplier Parks	22
2.4.2 Motives of the Original Equipment Manufacturer (OEM)	23
2.4.3 Motives of the Suppliers	24
2.5 Advantages of Automotive Supplier Parks	24
2.6 Disadvantages of Automotive Supplier Parks	26
2.6.1 The four dilemmas in Automotive Supplier Parks	28
2.7 Status analysis and current trends of Automotive Supplier Parks	32
2.8 Alternative concepts to Automotive Supplier Parks	36
Chapter 3 Methodology	47
3.1 Objectives	47
3.2 Sources of information	47
3.3 Objects of the investigation	48
3.4 Data collection	49

Chapter 4 Empirical analysis about Automotive Supplier Parks in Mexico	51
4.1 Automotive Supplier Park landscape in Mexico	51
4.2 Cases: Mexican Automotive Supplier Parks	52
4.2.1 Parque Industrial FINSA Puebla	52
4.2.2 Ford Futura Hermosillo	56
4.3 Evaluation of Automotive Supplier Parks in Mexico	61
4.3.1 Benefits	61
4.3.2 Limits & gaps	62
4.4 Concluding remarks and recommendations to eliminate the deficits	63
Chapter 5 Empirical analysis of the applicability of alternative solutions to Automotive Supplier Parks	66
5.1 Analysis Automotive suppliers	66
5.2 Analysis of the freight forwarders' place in the JIT-delivery - Example of ABX Logistics Mexico	80
5.3 Concluding remarks	83
Chapter 6 Conclusion	85
