CAPÍTULO 1

- [1] R. S. Longhurst, "Geometrical and Physical Optics". Longman, Great Britain, (1970).
- [2] Joseph W. Goodman, "Introduction to Fourier Optics", McGraw-Hill, U.S.A., (2004).
- [3] Eugene Hecht, "Optics", Addison Wesley Longman, U.S.A. (1998).
- [4] Haifeng Wang, and Fuxi Gan, "Phase Shifting Apodizers for increasing Focal Depth", Appl. Opt. **41**, 5263-5266 (2002).
- [5] Xinping Liu, Xianyang Cai, Shoude Chang, and Chander P. Grover, "Cemented Doubled Lens with an extended Focal Depth", Opt. Soc. Am. (2004).

CAPÍTULO 2

- [1] Joseph W. Goodman. "Introduction to Fourier Optics", McGraw-Hill, U.S.A. (2004).
- [2] Arfken and Weber. "Mathematical Methods for Physicists", Harcourt Science and Technology, EUA (2001).
- [3] Jack D. Gaskill; "Linear Systems, Fourier Transforms and Optics", John Wiley & Sons, EUA (1978).
- [4] J. Ojeda-Castañeda, P. Andrés, and A. Díaz; "Annular apodizers for sensitivity to defocus and to spherical aberration"; J. Opt. Soc. Am. **11** 487-489 (1983).
- [5] R. S. Longhurst, "Geometrical and Physical Optics", Longman, Great Britain (1970).
- [6] Milton Abramowitz and Irene A. Stegun, "Handbook of Mathematical Functions", Dover Publications, Canadá (1970).

CAPÍTULO 3

- [1] Haifeng Wang, and Fuxi Gan, "Phase Shifting Apodizers for increasing Focal Depth", Appl. Opt. **41**, 5263-5266 (2002)
- [2] Xinping Liu, Xianyang Cai, Shoude Chang, and Chander P. Grover, "Cemented Doubled Lens with an extended Focal Depth", Opt. Soc. Am. (2004)
- [3] W.H. Steel, "Interferometry", Cambridge University Press, England (1967).

[4] Eugene Hecht, "Optics", Addison Wesley Longman, U.S.A. (1998).

[5] Joseph W. Goodman, "Introduction to Fourier Optics", McGraw-Hill, U.S.A. (2004).

CAPÍTULO 4

[1] Haifeng Wang, and Fuxi Gan, "Phase Shifting Apodizers for increasing Focal Depth", Appl. Opt. **41**, 5263-5266 (2002).

[2] Haifeng Wang, and Fuxi Gan, "High Focal Depth with a Pure Phase Apodizer", App. Opt. **40**, 31 (2001).

[3] Longhurst, "Geometrical and Physical Optics", Longman, Great Britain (1970).

[4] Xinping Liu, Xianyang Cai, Shoude Chang, and Chander P. Grover, "Cemented Doubled Lens with an extended Focal Depth", Opt. Soc. Am. (2004).

[5] Joseph W. Goodman, "Introduction to Fourier Optics", McGraw-Hill, U.S.A. (2004).

[6] Eugene Hecht, "Optics", Addison Wesley Longman, U.S.A. (1998).

CAPÍTULO 5

[1] K.H. Brenner, A. W. Lohmann, and Ojeda-Castañeda, "The Ambiguity Function as a Polar Display of the OTF", Opt. Commun. **44**, 323 (1983)

[2] Joseph W. Goodman, "Introduction to Fourier Optics", McGraw-Hill, U.S.A. (1968).

[3] J. Bartelt, J. Ojeda-Castañeda, and E. E. Sicre, "Misfocus Tolerance seen by simple inspection of the ambiguity function", Appl. Opt. **23**, 2693, (1984).

[4] J. Ojeda-Castañeda, P. Andres, and E. Montes, "Phase-Space representation of the Strehl Ratio: Ambiguity Function", J. Opt. Soc. Am. **4**, 313 (1987).

[5] J. Ojeda-Castañeda, L. R. Berriel-Valdos, and E. Montes, "Ambiguity Function as a Design Tool for High Focal Depth", Appl. Opt. **27**, 4 (1988).

[6] J. Ojeda-Castañeda, P. Andres, and A. Diaz, "Annular Apodizer for Low Sensitivity to Defocus and to Spherical Aberration", Opt. Lett. **11**, 487 (1986).

[7] Jack D. Gaskill, "Linear Systems, Fourier Transforms and Optics", John Wiley & Sons, EUA (1978).
