

Dedicada a mi familia.

Acknowledgment

The author would like to thank

- Dr. Merced Montesinos Velásquez for taking him as a student, directing this thesis and sharing his knowledge with great clarity and patience, as well as for his support for graduate studies applications;
- the members of his jury, Dr. Olegario Alarcón Waess and Dr. Victor Andreevich Vysloukh, who reviewed this work;
- the professors of the Departamento de Actuaría, Física y Matemáticas at Universidad de las Américas, Puebla and the Department of Physics at the University of Notre Dame, who were instrumental and indispensable in his formation;
- MSc. Mercedes Velázquez, for offering her help regarding the cosmological constant term in CMPR, and BSc. Mariano Celada, for his aid with formalism;
- and Academia Mexicana de Ciencias for monetary support.

Agradezco en español a mi familia. Principalmente a mis padres, Flor y Benito, por su apoyo en todo momento, y a mi hermana Montserrat, quien me obliga a competir con su impecable historial académico. Agradezco además a mis viejos amigos de Veracruz, mis amigos y compañeros de la UDLAP y de Notre Dame y a la *cuadrilla* del Cinvestav, así como aquellos amigos que no son parte de alguno de estos conjuntos.
